

¡¡¡Matemateconjuguemos!!!

	X		-		-5
-		X		+	
	X		+		13
+		+		+	
	+		+		22
8		10		22	

STEP 1: Fill in the missing numbers in the puzzle above. (leave a little space for a letter too)

Use the numbers 1 through 9 to complete the equations.

Each number is only used once. Each row is a math equation. Each column is a math equation. Remember that multiplication and division are performed before addition and subtraction.

STEP 2: Translate the words below into Spanish. (Don't include pronouns)

- A. to _____
- B. they work _____
- C. I did, I made _____
- D. we met _____
- E. he used to put _____
- F. he gave _____
- G. we ask for, we order _____
- H. she served _____
- I. I saw _____

STEP 3: Put the letters with their corresponding number in the box above. The number matches the quantity of letters in your Spanish answer.
